

# NSA/CSS Evaluated Products List for Hard Disk Drive Destruction Devices

## OVERVIEW

Devices included on this list have passed evaluation by meeting requirements set by the NSA/CSS for the sanitization of magnetic hard disk drives. Meant to serve as guidance, inclusion in this document is not an endorsement by the NSA/CSS or the U.S. Government.

## QUALIFICATIONS FOR APPROVAL

Performance testing evaluates the device's ability to deform the platter(s) of a hard disk drive in 30 seconds or less, by bending, punching, or waffling.

The NSA/CSS does not evaluate hard disk drive shredders, however any shredder designed for hard disk drives is an approved method for platter deformation.

Equipment is listed in alphabetical order by vendor. Models that are no longer manufactured but still approved are included.

Vendors submitting equipment for evaluation will no longer have their return shipping costs funded by NSA.

Questions about specific models not shown can be directed to the Center for Storage Device Sanitization Research at 301-688-1053 or [CSDSR@nsa.gov](mailto:CSDSR@nsa.gov).

## WHAT YOU NEED TO KNOW

1. This list serves as guidance for the destruction of magnetic hard disk drives only. Refer to the *NSA/CSS 9-12 Storage Device Sanitization Manual*.
2. **When used on their own, hard disk drive destruction devices DO NOT sanitize magnetic storage devices.**
  - The hard disk drive destruction devices contained in this document are only authorized in conjunction with a magnetic degausser for routine magnetic hard disk drive sanitization, or by themselves only in emergencies as directed by the *NSA/CSS 9-12 Storage Device Sanitization Manual*.
  - Hard disk drive shredders do not sanitize unless a **2 millimeter particle size or smaller** is accomplished as directed by the *NSA/CSS 9-12 Storage Device Sanitization Manual*.
3. Each device offers different convenience features, footprints, throughput rates and power requirements. Contact the vendor to identify the unit(s) best suited to your site's needs.
4. When a product is removed from the EPL due to security reasons a grace period of six years for continued usage is in effect for DoD customers. IC customers follow your organization's policy regarding this matter. Government Contractors should follow guidance/policy of their cognizant government industrial security oversight organization.

This document is updated on an as-needed basis. The procedures for administration and distribution of the EPL are subject to change without notice.
